### WWMC/kPegg Transponder System

- You wear the transponder on your **right wrist** just like a wrist watch
- Wear it under your shirt or jacket to keep it clean – this will not affect the way it works.
- Please ensure that disc is on **OUTSIDE** of your wrist
- When you approach the reader, swing your wrist along the front surface of the scanner an inch or two away from the surface. The antenna is the black box with a yellow surround and a little yellow flashing light on it – not the other thing that looks like a car reversing light.
- When the other thing that looks like a car reversing light lights up you have been scanned and you may carry on  
The scanners cannot scan the same tag twice by mistake, so don't worry – you will not be accidentally credited with extra laps so you won't have to spend the rest of the race wrestling with your conscience.
- It is your responsibility to make sure you have been scanned! The light will tell you when this has happened. If you have followed these instructions and the light does not come on, go to the timing controller immediately who can record your time and issue you with a replacement transponder if necessary.
- After the event the transponders can safely be washed with the rest of your riding gear.

Transponders for this system cost £10 to buy from the club, and will be used at all club events. Should you forget or lose your transponder, you may hire one for the event for £20 cheque or cash returnable on return of the transponder at the end of the event.
